

State-by-State Medicare Resources Directory

State-by-State Medicare Resources Directory

Medical Disclaimer: This content is for educational purposes only and should not replace professional medical advice.

Always consult with your healthcare provider before making changes to your diabetes management plan.

Finding the right Medicare resources and support services in your state can feel overwhelming. This comprehensive directory connects you with local Medicare assistance programs, counseling services, and helpful organizations across all 50 states to help you maximize your benefits and get the diabetes care you need.

How to Use This Medicare Resources Directory

Each state listing includes:

- State Health Insurance Assistance Program (SHIP) contact information
- State Medicare office locations and phone numbers
- Local diabetes support organizations
- State-specific Medicare savings programs
- Additional resources for seniors with diabetes

Pro Tip: Save this page or print your state's information for easy reference when you need help with Medicare or diabetes resources.
